Corporate

Accendos is an established software development company with an enviable & proven track-record engaged in providing application development services, technology consulting and IT outsourcing solutions to clients worldwide.

Accendos strives to provide comprehensive, custom solutions for all your digital data needs. As an organization, we understand that each and every business has its own individual outlook and culture that sets it apart from its competitors. Therefore, it is of utmost importance to us to be able to reflect these individual aspects. This means that we will help you conceptualize, design, maintain, name and develop your product , website , mobile app or any digital marketing tool and help increase your ROI from the efforts.

Our Vision

Our vision is to extend our reach globally and while we already have successful branches in U.S.A. , U.K. and India, we strive to grow further, increase our learning and constantly challenge our perspectives and ourselves. As an organization, we understand how important it is to stay evolving in the field of media, and especially digital media, as it is ever-changing, vast and complex.

Our Mission

Create and deliver the best solutions

To create and provide world-class high-quality web applications and online solutions services with a special focus on emerging technologies.

Provide ethical and cost effective services

To hold the customer's interests paramount and provide ethical and cost-effective services in the most transparent manner possible.

Employ people who love their job

To employ people who love the job, possess a zeal to learn and innovate, pride themselves on their quality, believe in teamwork and mutual growth.

METHODOLOGY

Accendos development methodology provides a structured framework aimed at delivering high quality software solutions to our clients. Over last 15+ years we have refined our business process by blending the best industry practices like Rational Unified Process (RUP) and Agile Methodology and absorbed the best approach to get maximum performance and highest quality for projects while reducing redundant complexity that may effect project budget or timing.

RATIONAL UNIFIED PROCESS MODEL (RUP)

(For complex projects)

AGILE METHODOLOGY

(For small-mid sized projects)

EXPERTISE

As an IT technology consulting company, Accendos proactively gain insights into leading and emerging technologies to meet the ever-growing needs of clients.

PHP/LAMP

Accendos has a rich experience in delivering high quality PHP web applications for enterprises in various domains. Our expertise is spread across robust PHP frameworks including CakePHP, Zend, CodeIgniter, Symfony, Yii etc and open source CMS system such as Wordpress, Joomla, Moodle, Drupal, Kentico.

We leverage the time and cost saving advantages of open source technologies to deliver cost-effective and information enriched portals to full-blown scalable web solutions through engagement models most suited for your requirements.

ASP.NET

Accendos has been using the microsoft .NET Framework to deliver robust and scalable web, enterprise and desktop applications. Our skills include ASP.NET (MVC 5.0), ASP.NET 4.0/4.5, Windows Forms, .NET Remoting / Web Services, Silverlight, Sharepoint, ADO.NET.

Our services are available for customized application development, integration of web based application with legacy system and mobile application development.

Java/J2EE

Accendos provides robust software solutions using the power and flexibility of the modular approach offered by the J2EE platform. Our Java consulting and software development services provide full support at every stage of project development from architecture to implementation.

We provide services that can utilize efficiently the services available from java application servers and the J2EE framework, including Struts, Servlets and Java Server Pages (JSPs) Enterprise JavaBeans (EJBs), Java's Messaging Services and JDBC.

MOBILE SOLUTIONS

Accendos offers advanced services in the field of mobile application development across various platforms including iPhone/iPad, Android, J2ME, Blackberry and Windows Mobile.

We are constantly engaged in raising the bar and setting higher standards for mobile applications by using the three key characteristics, i.e. anytime access, personalization and contextual use, offered by mobile platforms. Accendos has been assisting large enterprises in making critical business decisions through its innovative mobility solutions since last 15+ years. We utilize the most effective technologies for building the perfect mobility solution for your business.
